#	NO, I THINK THIS REGULATION SHOULD BE ADDED	DATE
1	Should not be allowed	1/29/2026 8:47 PM
2	Placement should not be specific. Other then they need to be placed ON the owners property and not obstruct neighbors or towns view. Nor interfere with services access to meters, etc.	1/26/2026 9:51 AM
3	There has been one at a townhome on Cactus Cr. for years. Such an eyesore!	1/24/2026 2:24 PM
4	Only with a permit	1/20/2026 11:40 AM
5	only on residential properties over a particular size, say 1 acre, then following above guidelines	1/18/2026 12:05 PM
6	I believe that units in new condition would be aesthetically pleasing in the front of the property. This should be permitted, provided the placement does not create an obstruction for neighboring properties.	1/16/2026 6:18 PM
7	I believe the unit should be allowed in the front of the property, provided it sits behind the required setback. This location ensures it does not obstruct neighbors or negatively affect the look of the property or neighborhood.	1/16/2026 6:14 PM
8	Bigger residential lots like eg 1 acre plus	1/13/2026 6:59 AM

Metal Storage Containers Survey

9	Shouldn't be allowed as permanent structures. Only temporary use for on site construction.	1/12/2026 10:50 PM
10	Max 1	1/12/2026 8:44 AM
11	I needed two sea cans on a temporary basis when I had a flood and my house had to be emptied for repairs. The bylaw officer questioned what I was using them for.	1/11/2026 2:21 PM
12	They must be disguised as a home with addition of shrubs, flowers etc	1/11/2026 12:19 PM
13	More rules regarding construction sites if they are there for multi buildings or delay in construction	1/10/2026 1:51 PM
14	YES; Except the Maximum should be 1, not 2, on residential property	1/10/2026 12:00 PM
15	limited time	1/10/2026 11:24 AM
16	I think metal storage units should be allowed on property for a storage shed, garage and ADU in the back yard only. A minimum back yard size should be stipulated to qualify to place a unit on property. A limit of one on the property ie one storage shed, or one garage provided there isn't one on the property or one adu permitting a kitchen, bathroom and bedroom (s). The structure is only permitted if it is within the maximum lot coverage. The structure needs to be modified to look like a wood frame structure with a) flat roof, b) exterior siding like a house, c) window(s), 5) cannot be stacked and 6) can't have a roof deck.	1/9/2026 11:50 PM
17	you should be able to place on property line like any other portable building	1/9/2026 8:43 PM
18	As long as dry boxes/sea cans do not impede with access to a home from fire, ambulance or police then I feel that they should be permitted anywhere on residential property.	1/9/2026 12:31 PM
19	If the front yard has space a container SHOULD be permitted in the front yard - not all people can fit them in their back yards. They also make great fences to protect our property.	1/9/2026 11:18 AM
20	Metal storage container must be in good condition, painted a neutral colour	1/9/2026 9:52 AM
21	There should be a time limit when used with a building permit.	1/9/2026 9:22 AM
22	Not to allow	1/9/2026 8:12 AM
23	Maybe out of sight as well as in the backyard.	1/9/2026 8:01 AM
24	If it were to pass there should be stricter regulation. Only one and it needs to be the smaller ones	1/9/2026 7:47 AM
25	It should be minimally visible from the street	1/9/2026 7:17 AM
26	It should be allowed anywhere on the property you own n pay property taxes on	1/9/2026 1:35 AM
27	In residential areas, metal storage containers should not be an eyesore.. how about designating an area in an industrial zone away from residential areas for storage on a pay per use basis.. regulations can be drafted accordingly..	1/8/2026 8:38 PM
28	I believe containers that are converted to housing should be allowed and restrictions same as tiny homes.	1/8/2026 8:24 PM
29	No permanent placement of metal storage containers in the town.	1/8/2026 6:48 PM
30	the number should be based on the size of the lot, with only one allowed for a normal city lot and two only allowed if the lot is larger, or the other buildings are only a certain percentage of the lot. Unless what you mean by number 3 is that it will not be visible from the street, then I guess if a person wants to fill up their back yard with sea cans, why not? As long as they are not obstructing the neighbours' views.	1/8/2026 6:33 PM
31	No more than 1 on property	1/8/2026 6:26 PM
32	No realistic set of regulations would adequately address the impacts.	1/8/2026 5:31 PM
33	Theft, road/property access is being blocked. Should not be permanently placed in any residential zone.	1/8/2026 5:30 PM
34	limit to one container	1/8/2026 5:23 PM
35	Detail maximum time allowed with permit - ie. 6 months? 12 months?	1/8/2026 5:21 PM

Metal Storage Containers Survey

36	Ban them.	1/8/2026 5:15 PM
37	Maximum 1 Yes to bullets 2 and 3	1/8/2026 5:01 PM
38	Only in backyards	1/8/2026 4:21 PM
39	They should be of a certain quality/age to maintain cleanliness and good looks of the neighborhood.	1/8/2026 4:13 PM
40	Limited to one can	1/8/2026 3:48 PM
41	No containers in residential	1/8/2026 3:46 PM
42	Plus bylaw enforced. Neighbours had a container for 7 years!	1/8/2026 3:35 PM
43	Should have some type of aesthetic guidelines. Same color as house or not rusting etc.	1/8/2026 3:26 PM
44	They should be put in the yards of the people who wasted our time with this survey.	1/8/2026 3:16 PM
45	It should not impede of neighbouring view.	1/8/2026 3:14 PM
46	limit of one with an unchangable time limit	1/8/2026 3:14 PM
47	Back yard only. Not in front...not in driveway. Looks terrible.	1/8/2026 2:53 PM
48	if they are able to have them in residential area then only for a limited time-up to 1 year but nothing more!	1/8/2026 2:39 PM
49	Metal storage containers are very ugly, and detract from the appearance of residential neighbourhoods. I wouldn't object to one if it is completely hidden from the road and neighbouring properties. If allowed on a property, it should be on a footing that discourages vermin and other wild animals from burrowing underneath to live there.	1/8/2026 2:37 PM
50	But if there is a metal storage container then only for a limited time. Nothing more than a year!	1/8/2026 2:34 PM
51	They should not be allowed to be used in residential settings . Period .	1/8/2026 2:33 PM
52	I think only 1 should be allowed. The container should be painted to match or complement the main dwelling. They do not stand out.	1/8/2026 2:30 PM
53	bullet 3 removal as some properties have space only at frontage	1/8/2026 2:28 PM
54	They are unsightly would make Osoyoos look like Bridesville	1/8/2026 2:25 PM
55	Backyards only.	1/8/2026 2:23 PM
56	Maximum time allowed. Not permanent placement.	1/8/2026 2:21 PM
57	I think there should be more added to current regulation Example no garbage or stuff should be placed all around unit!	1/8/2026 2:20 PM
58	That there is a time limit for the seacan on the property.	1/8/2026 2:08 PM
59	They make yards look like a storage yard.	1/8/2026 2:07 PM
